

What tours?

The Basic Tour is always the same. You can further choose from a growing number of Tour Selections to give your tour a personal focus.

Our guided tours are not adrenaline-packed or luxurious, but cater to travellers like ourselves who want to learn, discuss and ask questions about the unique aspects of the country they are visiting.

What you will see:

You will see trees, animals and people with a different focus, the green blur of NZ will take shape and become distinguishable.

What you will learn:

Not the latin names of things but what's funny, crazy or unique to NZ nature and culture from a traveller's point of view.

What you can keep:

Hopefully good memories of a funny and interesting trip into nature and a handout to show around at home.
